

# *Technical Finishes*

We deliver results

- Concrete Curing & Sealing
- Adhesives and Repair Products
- Construction Grouting
- Construction Floor Systems
- Waterproofing Products
- Joint Sealants

## CONSTRUCTION PRODUCT RANGE

**SABS**  
ISO 9001

# CONSTRUCTION PRODUCT RANGE

## CONCRETE CURING

Technical Finishes offer a range of acrylic and resin based concrete curing agents that can be used to retain moisture in freshly cast concrete.

### TECHFAN RESIN CURE

Petroleum resin based concrete curing compound

### TECHFAN ACRYL CURE

Water based acrylic emulsion concrete curing compound

## ADHESIVES & REPAIR PRODUCTS

A standard range of Construction adhesives for concrete and metal as well as a range of repair products that can be used to repair cracks in concrete, protect steel and concrete against corrosion and give concrete an aesthetically pleasing finish.

### SOLIDKOTE 110

Wet to dry epoxy bonding agent and primer

### SOLIDKOTE 302

Quick cure structural and road stud epoxy putty adhesive

### TECHFAN METAL PRIMER

Cementitious resin system with high alkalinity protection for exposed steel

### TECHFAN CRACK INJECTION

Epoxy resin based crack injection compound

### TECHFAN GP EPOXY

High strength, non-flow, epoxy bedding and repair mortar

### TECHFAN PROBOND

Multi purpose polymer latex liquid use as a bonding liquid in cementitious systems

### TECHFAN CHEMICAL REPAIR MORTAR

Chemical set mortar for high early strength concrete repairs

### TECHFAN STRUCTURAL REPAIR MORTAR

Cementitious fibre reinforced polymer modified, thixotropic repair mortar and waterproofer

### TECHFAN PLASTER FINISH

Polymer modified repair mortar for use as a fairing compound or cosmetic coat mortar

## CONSTRUCTION GROUTING

Technical Finishes offer a complete range of epoxy and cement based grouts that can be used as a general purpose grouting or for filling in and bulking out areas required for heavy duty support.

### TECHFAN GP GROUT

Cementitious non-shrink high early strength workable general purpose grout

### TECHFAN BULKED GROUT

Cementitious non-shrink high early strength non-pourable grout for bulking

### TECHFAN FLOWABLE GROUT

Cementitious non-shrink high early strength fluid grout

### TECHFAN POURABLE GP EPOXY

High strength, low viscosity, solvent free, self-levelling epoxy resin grouting compound

## CONSTRUCTION FLOOR SYSTEMS

Technical Finishes offer a range of Cementitious overlayers that repair and strengthen the concrete substrate before final screed finishes are applied as well as offer good aesthetic characteristics.

### SEALKOTE

Water based acrylic sealer for porous substrates

### NANOSCREED

Decorative, thin layer self-levelling compound

### SOLIDSCREED 90

Durable cement based floor overlay for damaged concrete

### SOLIDSCREED 400

Polymer modified impact resistant hard wearing floor

### FLOWLINE

Self-levelling flowable floor screed

### FLOWLINE SUPER

Self-levelling high early strength screed

### FLOORSKIM

Quick setting floor smoothing compound

### SEAL & STRENGTHEN

Sealer and hardener for weak screeds and concrete

### TECHFIN CONCRETE DENSIFIER

Sealer hardener for concrete floors

### SMOOTH 'N PATCH

Universal floor smoothing and patching cementitious compound

## WATERPROOFING PRODUCTS

Technical Finishes offer a range of cementitious and Acrylic waterproofing products that can be applied as a water barrier system to cementitious substrates or for sealing off flowing water in concrete structures.

### TECHFIN WATERGUARD

Cementitious surface water barrier system

### SPEEDPATCH

Quick setting cement patching compound

### TECHFIN HYDRAKOTE

Acrylic waterproofing system for concrete

### SMOOTH 'N PATCH SPECIAL

Flexible cementitious polymer modified lining plaster

### PRODOX

Waterproofing cementitious plaster finish

## JOINT SEALANTS

Technical Finishes offer a range of joint sealants that can be used on concrete or steel substrates. Low modulus joint sealants are used in areas where extreme movement is anticipated.

### JOINT SEALER 299LV

General purpose twin pack polysulphide joint sealing compound

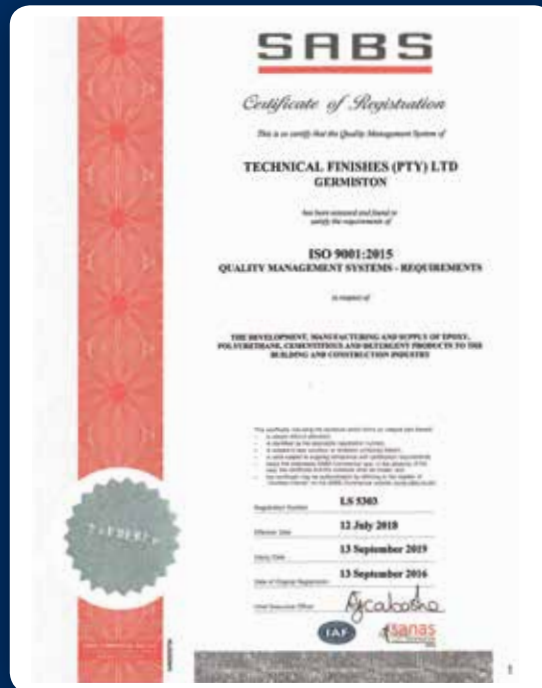

### JOINT SEALER 515LM

Single component low modulus hybrid sealant

### JOINT SEALER 525

Single component polyurethane sealer

**Manufacturers of High Performance, Technically Advanced,  
Durable, Hygienic, HACCP Compliant Flooring and  
Construction Related Systems**

**DRIVEN BY TECHNOLOGY**

Technical Finishes manufacture a wide range of construction related products, using International Technology. Our factories in Gauteng and Cape Town are certified as SABS ISO 9001:2015 Quality Management Systems facilities and committed to the development of local expertise.
