## FLOORING

**POLYSCREED**  
Specialist Flooring

# Commercial & Decorative Flooring

## Polyscreed Epoxy Terrazzo

Decorative terrazzo finish combining natural coloured quartz and marble to suit every designers needs.

## Smooth & Patch

Universal decorative cementitious floor levelling and repair system. Available in 12 standard colours.

## Polyscreed Quartz

Attractive, coloured quartz screed with excellent abrasion and wear resistance with a satin finish. Ideal for commercial environments.

# Heavy Duty Decorative PU Screed

## Polyscreed GHF Terrazzo

A unique polyurethane Terrazzo floor screeding system with customisable aggregates and colours to suit many environments. The system provides the maximum in performance flooring with a decorative and aesthetic appeal.

## Polyscreed Quartz Colours

Custom colour combinations on request

Disclaimer: The ink printed colours on this brochure are indicative colours and will vary from the actual resin colours.

# Floor Coatings

## Solidkote WB

Water-based epoxy coating in clear or colours, offering an easy to clean cost effective, hygienic coating. Can be applied on damp substrates and can also be used for wall application.

## Solidkote PU

Single pack gloss moisture cured polyurethane coating delivering exceptional scratch and abrasion resistance.

## Solidkote UVC

Tough durable UV resistant and colour stable polyurethane coating for concrete or steel, clear or colours are available and can be used for wall applications.

## Solidkote Turbo WB

Environmentally friendly, VO compliant water based polyurethane with antimicrobial additive for the food and beverage industry.

## Solidkote Impact

Solvent free high build polyurethane with exceptional impact and crack bridging capabilities.

## Solidkote Robust

High build abrasion resistant epoxy coating delivering high gloss, durability and chemical resistance. Available in non-slip if required.

## Solidkote Ultra Tough

Rapid cure, impact resistant polyurethane coating. Walk on in 2 hours.

# Polyscreed Polyurethane Floor Screeds

## Polyscreed SL

2-3mm polyurethane self-levelling screed. Matt finish, excellent chemical resistance.

## Polyscreed MD

Medium duty 4mm polyurethane self-levelling for demanding environments.

## Polyscreed RT

Easy to apply "rake and trowel" between 5-6mm polyurethane screed for heavy duty applications.

## Polyscreed HF

Heavy duty slip resistant 6-9mm hand trowelled polyurethane screed for wet food and beverage process areas.

## Polyscreed WR

Polyurethane wall render for covings and vertical applications between 3-6mm.

## Polyscreed UT

Ultra Tough polyurethane slip resistant screed textured to a profile suitable for wet and slippery environments.

## Polyscreed Lockcoat

Polyurethane sealer coat for WR or rejuvenation of polyscreed screeds.

Disclaimer: The ink printed colours on this brochure are indicative colours and will vary from the actual resin colours.

Polyscreed products incorporate an antimicrobial additive based on silver ion technology.

# Self-levelling Screeds

## Solidflow SL 1000

Self-levelling 1mm epoxy topping offering smooth glossy, hygienic surfaces for dry process areas.

## Solidflow SL 2000

Heavy duty 2mm self-levelling epoxy topping with exceptional wear and abrasion resistance. Seamless, hygienic gloss finish.

## Solidflow Impact SL

Self-levelling 1-2mm polyurethane with excellent crack bridging capabilities also ideal for cold rooms and suspended floors subject to vibration and movement.

## Solidflow Quartz

Self-levelling, decorative, 2-4mm epoxy floor system with a unique terrazzo quartz appearance. Ideal for commercial and industrial environments. Available in a selected range of colours with a gloss or matt finish.

# Anti-static Flooring

## Polyscreed MD ESD

Heavy duty PU floor to combat electrostatic activity. Solvent and chemical resistant anti-static matt finish.

## Solidflow Quartz Colours

Custom colour combinations on request
