Polyscreed Polyurethane Floor Screeds

Polyscreed SL
2-3mm polyurethane self-levelling screed. Matt finish, excellent chemical resistance.

Polyscreed MD
Medium duty 4mm polyurethane self-levelling for demanding environments.

Polyscreed RT
Easy to apply “rake and trowel” between 5-6mm polyurethane screed for heavy duty applications.

Polyscreed HF
Heavy duty slip resistant 6-9mm hand trowelled polyurethane screed for wet food and beverage process areas.

Polyscreed WR
Polyurethane wall render for covings and vertical applications between 3-6mm.

Polyscreed UT
Ultra Tough polyurethane slip resistant screed textured to a profile suitable for wet and slippery environments.

Polyscreed Lockcoat
Polyurethane sealer coat for WR or rejuvenation of polyscreed screeds.

Disclaimer: The ink printed colours on this brochure are indicative colours and will vary from the actual resin colours.

Polyscreed products incorporate an antimicrobial additive based on silver ion technology.
Self-levelling Screeds

Solidflow SL 1000
Self-levelling 1mm epoxy topping offering smooth glossy, hygienic surfaces for dry process areas.

Solidflow SL 2000
Heavy duty 2mm self-levelling epoxy topping with exceptional wear and abrasion resistance. Seamless, hygienic gloss finish.

Solidflow Impact SL
Self-levelling 1-2mm polyurethane with excellent crack bridging capabilities also ideal for cold rooms and suspended floors subject to vibration and movement.

Solidflow Quartz
Self-levelling, decorative, 2-4mm epoxy floor system with a unique terrazzo quartz appearance. Ideal for commercial and industrial environments. Available in a selected range of colours with a gloss or matt finish.

Anti-static Flooring

Polyscreen MD ESD
Heavy duty PU floor to combat electrostatic activity. Solvent and chemical resistant anti-static matt finish.
